

Monday September 14

Updates on CFMIP and the WCRP Climate Sensitivity Assessment

Conveners: Masa Watanabe (University of Tokyo) and George Tselioudis (NASA GISS)

Speakers: Steven Sherwood (University of New South Wales), Mark Webb (UK Met Office), and Yen-Ting Hwang (National Taiwan University)

Tuesday September 15

Does convective organization matter for climate?

Conveners: Thorsten Mauritsen (Stockholm University), Angeline Pendergrass (NCAR/Cornell University), and Da Yang (UC Davis/Berkeley Lab)

Speakers: Sandrine Bony (Laboratoire de Meteorologie Dynamique), Allison Wing (Florida State University)

Wednesday September 16

Does atmosphere-ocean coupling matter for climate?

Conveners: Yen-Ting Hwang (National Taiwan University), Paulo Ceppi (Imperial College), Cristian Proistosescu (University of Illinois), and Masa Watanabe (University of Tokyo)

Speakers: Natalie Burls (George Mason University), Kyle Armour (University of Washington)

Thursday September 17

Do extratropical cloud feedbacks matter for climate?

Conveners: Mark Zelinka (Lawrence Livermore National Lab), Steve Klein (Lawrence Livermore National Lab), Alejandro Bodas-Salcedo (UK Met Office), George Tselioudis (NASA GISS)

Speakers: Jennifer Kay (University of Colorado), Johannes Mulmenstadt (Pacific Northwest National Lab)
